

The building work has started already.

HOW LONG WILL IT TAKE?

It will take up to 12 months to build the Bangsak School and dormitory.

The Thai military will construct the buildings and The King's Foundation will manage and monitor the project.

HOW MUCH WILL IT COST?

It will cost at least 30 million baht to build two buildings (with three stories), chairs, desks, writing boards, and other equipment for the school.

HOW WILL WE PAY FOR THE SCHOOL?

The ISB Tsunami Relief Network received a large donation (19.2 million baht) but we need 10 million baht more. ISB students, parents and employees are raising money through garage sales, read-a-thons, jump-a-thons and cash donations. Did you know that if each family of the community contributed a minimum of 2500 baht, we would meet our goal?
