Management of the Zonal Team.....	66

EXPLANATIONS AND COMMENTS

View

Step 2: The welcome must be affectionate and warm. The reading of the objectives adjusts the expectations of the participants and serves as motivation.

Step 3: Among the many books on dynamics, we recommend "DYNAMICS" by J. Marins. Editorial CRT. There are more than 100 techniques for group presentation and integration.

Time: The zone promoter couple watches over and coordinates so that the first three steps don't take more than 45 minutes.

JUDGE

Step 4: The zone promoter couple along with the priest choose a biblical verse related to the liturgical period we celebrate that is used to shed light on the meeting.

Step 5: Groups of 5 couples are made, one from each basic team, to discuss the following questions: (let us remember that it is not about doing an "intellectual" revision of the content of the topics nor to remember them by memory but to put together how these topics have been lived and what repercussion have they had on our lives.):

1. How we are responding in our family and our community to the ecological challenge?
2. How is the level of our social consciousness? What about our social commitment?
3. Are our families and our community of CFM "genuine schools of prayer" as requested by Pope John Paul II?
4. Are we pessimistic or optimistic about the future? Do we fight to historicize the Kingdom of God "hoping against hope"?

Step 6: Have a plenary to pool main conclusions

Step 7: Illumination and summary of the topic, by the priest.

ACT

Step 8: At the end of the topic discussion, the zone promoter couple in plenary can put a flipchart and ask everyone: What are we going to do so that with the light and strength of the Holy Spirit these ideas are put into practice?

Step 9: Celebration of the paraliturgy and coexistence.
